Approved Experiential Courses

All Chicago-Kent students are required to complete six credits from the following list of approved experiential courses. Most students will already satisfy four of these credits through the required sequence of Legal Writing 3 and Legal Writing 4. However, students who opt for the Legal Writing 4 equivalency should consult the list of approved courses to determine whether the equivalency activity (e.g., Judicial Externship, Pretrial Litigation) counts toward the experiential requirement. Law Review does not count toward the experiential requirement.

All course offerings listed below are subject to restrictions as set forth in the Registration Bulletin or Chicago-Kent Student Handbook, including but not limited to course pre-requisites, instructor permission requirements, and required certificate program enrollment. Please contact Professor Van Neste, Director of Experiential Learning at mvanneste@kentlaw.iit.edu with any questions, or if you believe a course has been excluded from this list in error.
